A map will then display. Your current location is represented by a blue flag. The prospective customers who are turning 65 will be shown with red flags. You can drag and drop your location (the blue flag) and the results will adjust accordingly. The customers Name, Date of Birth and Address will appear along with the lowest Med Supp rate and a link to see other rates as well.

NOTE: In the "Application Settings" you can adjust which prospects you see on the list. For example, the settings below would show you prospects who are between 2 and 6 months of turning 65.

The screenshot shows a mobile application settings screen. At the top is a dark blue header with a white back arrow on the left, the word "Settings" in white in the center, and a white home icon on the right. Below the header is the section title "T-65 Map Preferences". There are four settings, each with a label and a dropdown menu:

- Label: "Maximum Results..."  
Dropdown: "10 Results Max." with a downward arrow.
- Label: "Maximum Distance..."  
Dropdown: "Any Distance" with a downward arrow.
- Label: "Maximum Months Until Age 65..."  
Dropdown: "6 Or Less Months to 65" with a downward arrow.
- Label: "Minimum Months Until 65... (advanced)"  
Dropdown: "2 Or More months\_more to 65" with a downward arrow.
